

04 November 2019

Wilson High School
2601 Grandview Blvd
West Lawn, PA 19609

Dear Guidance Department

Annually for the past nineteen years, the Lehigh Valley Section of the Society of Women Engineers (SWE-LV) has awarded scholarships to top prospective students who identify as female graduating from area high schools who were enrolling in engineering at a college or university. Last year we awarded a total of \$25,500 to seven recipients. Given the continued tremendous support of corporations and foundations in the area, SWE-LV will be awarding scholarships again this spring.

SWE was chartered in 1950. Since then, the Society has grown to nearly 20,000 members in more than 100 sections and 300 student sections. The Lehigh Valley Section is very active in the community and consists of over 50 members. For almost 70 years, SWE has worked to support women in engineering and to encourage more women to enter or re-enter the engineering profession.

Scholarships of up to \$5,000 will be awarded to students who identify as female graduating from area high schools (areas with zip codes beginning 177-187 and 195-196, which includes over 20 counties in Pennsylvania) in 2020 and enrolling in an engineering program at a college or university in the fall of 2020. The scholarship recipients are chosen every year based on academic achievement, extracurricular and leadership activities, an evaluation form, and an essay.

Applications for the scholarship can be found on our website. **All applications should be submitted electronically by 5pm on February 2, 2020.** Each recipient will be invited to attend our annual brunch in May where she will be formally presented with the award.

As we streamline our process, we would like to move to email communications. Please send the appropriate email contact information for future reference to us at SWELVScholarship@swe.org. We can also provide a hard copy application, if that is needed.

Sincerely,
The Scholarship Committee
Lehigh Valley Society of Women Engineers

SENIORS: WANT TO BE AN ENGINEER?

2020 Scholarship Application is Now Available!

The Lehigh Valley Professional Section of Society of Women Engineers grants scholarships to graduating high school seniors who identify as female and will be entering an accredited engineering program. Evaluation is based on academic achievement, extracurricular and leadership activities, an evaluation form, and an original essay.

A one-time award of up to \$5,000 will be granted to each of the successful applicants.
