

OCTOBER UPDATE FROM OUR NURSES!

STAYING HOME WHEN YOU ARE SICK

As we enter the colder months of the school year, this is a reminder that any student experiencing symptom(s) of illness, even mild, are required to stay home and contact your student's school nurse for details regarding our return to school policy, which follows guidance from the Pennsylvania Department of Health. It is important to know that any student with symptoms of illness needs to follow this procedure, regardless of COVID-19 vaccination status.

DAILY HOME SCREENING

Please do not send your student to school if they are exhibiting any of the symptoms listed.

If students have any of the listed symptoms, they must stay home and parents/guardians need to report the illness to the school nurse. Please be specific as to the symptoms that your student is experiencing. If students have had close contact with an individual who has tested positive for COVID-19 the parent/guardian must contact the school nurse to determine when the student may return to school. If you have any questions about these procedures, please contact your school nurse.

DOCUMENTED ALLERGIES

Many students suffer from seasonal allergies, and symptoms often resemble those of COVID-19. In order for symptoms of allergies to be considered explained/expected, your student must have a doctor's note on file, which includes a list of allergens and the typical symptoms experienced.

Thank you for doing your part to keep our
students and staff safe!
