

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

District teams of administrators and teachers collaborated on the process of identification of those students who are either at-risk or underserved student populations. These students were directly invited in writing through parent communications and advertisement about the

summer learning loss programming. Any and all students ages 5-10 were eligible to participate and welcomed to enroll into the program. The design of the program was intended to have an academic focus with particular emphasis on the social and emotional needs of learners who had experienced lost learning opportunity due to the pandemic.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	52	baseline information reviewed by staff, pre-assessment strategies inclusive of observation, performance demonstrations & written assessments, individual student conferences
Children with Disabilities	Academic Growth	33	baseline information, inclusive of IEP goals reviewed by staff, pre-assessment strategies inclusive of observation, performance demonstrations & written assessments, individual student conferences
			baseline information reviewed by staff, pre-assessment strategies inclusive of observation, performance

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
English Learners	Academic Growth	7	demonstrations & written assessments, individual student conferences, parent communications in native language as necessary

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Planned differentiation used during teacher planning - lessons were designed to be flexible and allow for enrichment and remediation as required by student readiness levels. Individual observations and group mini-lessons offered to students as needed Parent communications offered in native language for students who are English Learners - as necessary

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
30	Internal Provider	teachers

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Reading Benchmark	twice per year	student growth up to one year of starting level
Math assessment	by unit	demonstrated understanding of standards indicated on the unit assessment

6. How will the LEA engage families in the summer school program?

Families have been provided with informational flyers regarding the program themes and outcomes - district website as well Student work came home with participants daily Teachers reached out to families of students (as needed) regarding concerns and celebrations from the camp day experience "Thank you for participating" communications Invitations to observe daily activities Formal public School Board presentation
