Report on the progress made in attaining the goals of the wellness policy (REQUIRED):

Report of Progress on Wellness Initiatives from 2022-2023 through 2024-2025 School Years.

The Wellness Committee strives to assess nutrition, physical activity and overall wellness activities held in each school throughout the school year.

SY 2022-2023: The Wellness Policy, Section 200, # 246, was reviewed. The district focused on improving nutrition education strategies in the cafeterias and through staff education. Food service staff received nutrition education that better prepared them for holding food tastings in the cafeterias.

SY 2023-2024: The Wellness Committee met four times during the school year. Committee membership was expanded to include the policy recommendation of: Administrators, school nurse, food service, physical education teachers, school board member, students, community members, and parents. The committee became familiar with the wellness policy. Practices were put in place to track and monitor fundraisers to ensure each school did not exceed the allowable number of events per year. The Food Service department participated in National School Lunch Week in October and National School Breakfast week in March.

SY 2024-2025: The wellness committee re-vamped the staff wellness day to include additional physical activities and nutrition education offerings. Additionally, the food service and nursing departments partnered throughout the year to improve protocols in dealing with student allergies and for diabetic students.
